ABSTRACT

Results of the Iowa Tests of Basic Skills (ITBS) for grades 1-6 for 1980-81 are presented, including school and district characteristics, in order to describe the general context in which these achievement scores were collected. The test results for students in each elementary school are presented by grade; in addition, summaries for three ethnic groups (Black, Hispanic, and Anglo/Other) are reported. There are separate pages of achievement profiles for the ITBS in reading (grades 1-6), language (grades 3-6), work-study (grades 3-6), and math (grades 1-6). The summaries for spelling and word analysis at grades 1 and 2 are combined on a single page. All test results are reported by the median score, and by the first-quartile and third-quartile scores. FOREWORD

The following pages record the results of the Iowa Tests of Basic Skills (ITBS) for grades 1-6 for 1980-81. Results are presented for each campus as well as for the District. School and District characteristics accompany these results, in order to describe the general context in which these achievement scores were collected.

Although the data presented here must be viewed and interpreted with the cautions outlined below, it is still important to reaffirm that the test results do provide some valid information about the status of AISD students in the skills areas tested. It is hoped that school staffs, administrators, and the community at large will consider the implications of the test data for both school and community action. Reasons for the test results will almost never be simple or clear-cut. Test results tell us whether or not a problem exists; they cannot tell us the cause of the problem, nor advise us of the best remedy. Creative thinking and a thorough knowledge of the community, the school and the curriculum are all necessary for understanding the implications of these test results.

DESCRIPTION OF THE TESTS

The ITBS has four sections for grades 3-6 and five sections for grades 1 and 2. The reading section is composed of the Vocabulary and Reading Comprehension subtests (grades 1-6). The language section includes Spelling, Capitalization, Punctuation, and Usage subtests in grades 3-6, but only Spelling in grades 1 and 2. The third section, which is work-study, is composed of Visual Materials and Reference Materials (grades 3-6 only). The math section has three subtests, which are Math Concepts, Math Problems, and Math Computation (grades 1-6). The fifth section, for grades 1 and 2, is word analysis.

The ITBS was administered at each elementary school using the standardized instructions provided for the test. Additional information on the ITBS, on systemwide results, and on interpretations of the data can be found in the 1980-81 Evaluation Findings (Publication Number 80.32) and the 1980-81 Systemwide Evaluation Final Technical Report (Publication Number 80.39).

DATA LIMITATIONS

The reader should be aware of some limitations in these data:

A. Identification of Students Excluded from Testing.

1. Special education students who spent one hour or more each day in the resource room, or who were enrolled in an integrated (self-contained) special education classroom, were exempted from ITBS testing in 1979-80.

For the 1980-81 school year, special education students were exempted from ITBS testing by the local Admission, Review, and Dismissal (ARD) Committees. Students whose ARD Committees had not yet made a determination regarding their inclusion in or exclusion from testing for 1980-81 could be exempted at the discretion of the teachers and principal. The following guidelines were issued to use in reaching these decisions:

a) A special education student who receives the majority of instruction from a regular classroom teacher in a subject area measured by a standardized test should take the test in that area.

b) Most students receiving more than three (3) hours per day of special education services should be exempt from standardized testing.

c) A student receiving three (3) hours or less per day of special education services who cannot be tested validly on a standardized test should be exempt.

d) A special education student who cannot make a valid score on a standardized test may be tested if inclusion in the testing experience would be of benefit to that student in other ways.

Scores for special education students receiving one or more hours of special education assistance per day were excluded from elementary ITBS school and District reports for 1980-81.

2. Scores for students who were classified as monolingual or dominant in a language other than English were not included in school or District summaries in 1979-80 or 1980-81. These classifications were made on the basis of individual administrations of the Primary Acquisition of Language Test to all students for whom English was not obviously the dominant language.

During 1980-81, a partial exclusion from testing was available to certain limited-English-proficient (LEP) students. After the administration of the first subtest (Vocabulary), LEP students who were dominant or monolingual in a language other than English could be excused from other tests if the teacher judged that the student could not understand English well enough to answer about one out of four items correctly. This determination was to be made for each test separately, since a LEP student who may be unable to take a reading comprehension test may be able to do reasonably well on a math computation test.

B. Testing Environment.

Each year the Office of Research and Evaluation (ORE) prepared a set of detailed testing guidelines to be followed for every teacher, counselor, and principal in the District. Feedback from school staff and ORE personnel monitoring in the schools each year have indicated that for the most part these instructions were adhered to, and that testing conditions were reasonably good and consistent across the District.

C. Test Scoring.

For 1979-80 and 1980-81, machine-scorable booklets were used for grades 1 and 2, and machine-scorable answer sheets were used for grades 3-6. A very small error factor due to incompletely marked answers, incompletely erased answers that were changed, or stray marks on the answer sheets and booklets is probably present.

HOW TO READ THE PROFILES

The following pages present summaries of the results of the Iowa Tests of Basic Skills (ITBS) for students in each AISD elementary school. Achievement summaries are presented separately for each grade, for the total group of students. In addition, summaries for three ethnic groups (Black, Hispanic, and Anglo/Other) are reported. Where applicable, scores for matched groups are presented to provide a means for comparing achievement of the same students over a two-year period. The matched group scores reflect achievement of those students who took the tests in both of the past two years.

All test results are reported by the median score, and by the first-quartile and third-quartile scores. The median score for a given grade within a school is the middle score for that particular group of children, or the score which half of the students scored higher than and half scored lower. It is a good indicator of the typical performance for that group of children. Likewise, the third-quartile score is the score that 25% of the students scored above, and the first-quartile score is the score that 75% of the students scored above.

These scores are reported as "percentile ranks," which are based upon a nationwide sample of students at each grade level who completed the ITBS prior to its publication. The scores made by this nationwide sample of students at each grade level was used to establish reference points for evaluating the performance of all subsequent groups of students at the same grade level who are administered the tests. The nationwide median score is the score that was surpassed by exactly half of the students at that grade in the national norm group. The median score is therefore the fiftieth percentile rank, which is the point that divides the top 50% from the bottom 50% of the students at each grade in the nationwide norm group. Similarly, the third-quartile score is the score that was exceeded by only 25% of the nationwide group, and the first-quartile score is the score that was exceeded by 75% of the national group. These two scores are, respectively, the 75th and 25th percentile ranks.

Therefore, if a given grade within a school has a median score of 60, this means that the middle score for that particular group of students was the 60th percentile rank, or the score that was exceeded by only 40% of the students at that same grade in the nationwide norm group. Any median percentile rank higher than 50 is higher than the median for the norm group at that grade level, and any median lower than 50 is lower than that for the norm group. Likewise, any third-quartile score higher than 75 is higher than that for the norm group and any first-quartile score higher than 25 is higher than that for the norm group.

There are separate pages of achievement profiles for the ITBS in reading (grades 1-6), language (grades 3-6), work-study (grades 3-6), and math (grades 1-6). The summaries for spelling and word analysis at grades 1 and 2 are combined on a single page.

Achievement summaries are provided for the total group and for each of three ethnic groups (Hispanic, Black, and Anglo/Other). Three sets of scores are reported for each of these groups:

1. All 1980-81: The scores for all students tested at that grade in 1980-81 who are included in summary reports.

2. Matched 1980-81: The 1980-81 scores of those students who took the ITBS in both 1979-80 and 1980-81.

3. Matched 1979-80: The 1979-80 scores of those students who took the ITBS in both 1979-80 and 1980-81.

The number of students tested each year is recorded here, also, along with the percentile scores which correspond to the median, third-quartile, and first-quartile points for the national norm group.

SCHOOL CHARACTERISTICS

The school characteristics accompanying each school's achievement data are reported to give the reader an idea of the context in which the achievement data were collected. The current set of six characteristics reported does not exhaust all important information about the school.

Membership

The membership figure is calculated by taking the aggregate days of membership (i.e., the total number of days membership of all the students) and dividing it by the number of days in the school year. This information is recorded by AISD's Office of Child Accounting, and is published annually in the "Average Daily Membership by Schools for the Entire Year" report as the official figures for the District.

Percent Attendance

The percent attendance is calculated by taking the average number of enrolled students present each day (including special education students), and dividing this by the average daily membership. This information is published annually by AISD's Office of Child Accounting in a report entitled "Average Daily Attendance by Schools for the Entire Year," as the official figures for the District.

Pupil/Teacher Ratio

The pupil/teacher ratio (PTR) reflects the average number of regular students per regular teacher in each school. This ratio is computed by dividing a school's number of nonkindergarten, nonintegrated special education pupils by the number of regular teachers (excluding kindergarten, special area, and special education teachers). The student count does include students attending resource classes. This elementary figure is computed for internal purposes only, and may deviate slightly from the PTR reported by other sources.

Percentage Low-Income Students

This figure is the number of students qualifying for free or reduced-price lunch, divided by the average daily membership for the third six-weeks. The free and reduced-price lunch counts were gathered by the Title I evaluation staff in January, 1981, based on information supplied directly by the schools. The counts are published in an Office of Research and Evaluation report, Needs Assessment for the Preparation of the ESEA Title I Application (Publication Number 80.81). Refer to that report for further information.

Ethnic Distribution

The "ethnic distribution" figures reflect the percent of enrolled students, on October 1st of each school year, who are Hispanic (H), Black (B), and Anglo/Other (A/O). These percentages are based on the "Ethnic Composition of Students" report issued by the AISD Office of Child Accounting.

The assignment of students to ethnic categories involves some error, such as the use of Hispanic surname as a basis for assigning a student to the Hispanic category. About 1% of AISD students are American Indian or Asian, and are included in the Anglo/Other percentages reported. Notwithstanding these problems, the figures reported here are probably accurate ± 2 percent.

Major Special Programs

Listed under "Major Special Programs" are programs which bring additional resources to a number of schools in the District and which operate in the particular school under consideration. This list is an attempt to name the major programs at each school without listing every resource a school has. The following criteria were used to determine which programs to include:

1. Does the program provide additional inputs (e.g., staff, materials, training) to the school's resources? By this criterion, changing curricula is not a major special program, since inputs were changed, not added.

2. Is the program on at least two secondary campuses, or six elementary campuses, or four campuses each for elementary and secondary, but not on all campuses? By this criterion, Special Education is excluded because it operates in all schools.

3. Is it possible to argue a direct causal effect of the program upon achievement in the skills areas measured by the ITBS?

The programs that met these criteria at the elementary level in 1980-81 are as follows:

Community Schools - Jointly sponsored by the City of Austin and Austin ISD, this program is aimed at meeting the educational needs of the whole community. Coordinators at eleven elementary and two junior high school campuses work with school personnel to put together a program offering a wide variety of activities in the areas of academics, arts and crafts, culture, recreation, vocation, and self-help. Among the student-oriented activities are tutoring in reading and mathematics, reading and math enrichment, writing, science, and study skills. Enrollment in community schools is not restricted to students residing in the school's attendance zone. Community school programs may therefore influence achievement at campuses other than the ones where they operate.

ESOL - English for Speakers of Other Languages. Students who have been identified as of limited English proficiency (LEP) and any other students needing special help with English are served in ESOL classes, which provide instruction in English.

Local/State Bilingual - Any student who meets the following criteria is eligible for the Local/State Bilingual Program in AISD.

a) Enrolled in grades K-8;

b) Responded "Spanish" to any of the three questions on the Survey of Home Languages; and

c) Scored below 85 (level 5) on the Primary Acquisition of Language (PAL) test.

This program provides bilingually certified teachers and/or remedial instruction in English to qualified students.

Title I Migrant - Students whose parents or guardians are migratory farm workers or fishermen and have migrated within the past five years are eligible for services under the Migrant Program. Such services include instructional and parental involvement services, medical care, and clothing.

SCE - State Compensatory Education. Funds provided by the State of Texas through SCE financed a variety of instructional inputs in 1980-81. At the elementary level, these included:

a) 22 teachers, six of whom were bilingual, to assist students achieving at or below the 40th percentile in reading/language arts or mathematics, and

b) partial funding of 22 counselors, who are expected to devote 40% of their time to students achieving at or below the 40th percentile in reading/language arts or mathematics. SCE funds were also used in carrying out the State-mandated Texas Assessment of Basic Skills (TABS) testing at grade levels 3, 5, 9, and 10.

Title I - The Title I Program provides supplementary reading instruction to low-achieving students in schools with high concentrations of students from low-income families.

Title I Schoolwide Projects - Allison and Becker Elementary Schools had sufficient concentrations of low-income students to qualify for federal and local matching funds. These funds were used to lower the pupil/teacher ratio (PTR) to 15-to-1.

Instrument Description: Iowa Tests of Basic Skills, 1978 Edition, Form 7

Brief description of the instrument:

Levels 7 and 8 were given to grades 1 and 2, respectively, to measure skills in the areas of Word Analysis, Vocabulary, Reading Comprehension, Spelling, Math Concepts, Math Problems, and Math Computation. ITBS levels 9-14 were administered to grades 3-8 with the test level for students in grades 4-6 chosen on the basis of their previous achievement scores (with teacher review). Levels 9-14 include subtests in all the areas mentioned for levels 7 and 8, except for Word Analysis. In addition, levels 9-14 include subtests measuring Capitalization, Punctuation, Usage, Visual Materials, and Reference Materials.

To whom was the instrument administered?

All elementary and junior high students, grades 1-8. Special education students were exempted as per Board Policy 5127 and its supporting administrative regulation. Students of limited English proficiency (LEP) were not exempt, but could be excused after one test on which they could not function validly. Scores for students who were monolingual or dominant in a language other than English were not included in the school or District summaries.

How many times was the instrument administered?

Once to each student.

When was the instrument administered?

The elementary schools administered the test April 28, 29, and 30, 1981. The dates for the junior high administration were February 17, 18, and 19. Tests were administered in the morning. Make-ups were administered the week after the regular testing.

Where was the instrument administered?

In each AISD elementary and junior high school, usually in the student's regular classroom.

Who administered the instrument?

Classroom teachers in the elementary schools. In the junior high schools, the counselor or principal administered the tests over the public address system using taped directions provided by ORE. Teachers acted as test monitors in their classrooms at these schools.

What training did the administrators have?

Building Test Coordinators participated in planning sessions prior to the testing. Teacher training was the responsibility of the Building Test Coordinator. However, teacher inservice training was available from ORE upon request. Teachers and counselors received written instructions from ORE, including a checklist of procedures and a script to follow in test administration.

Was the instrument administered under standardized conditions?

Yes. Standardized instructions were distributed. ORE personnel monitored in a random selection of classrooms with results indicating that testing conditions were reasonably consistent across the District.

Were there problems with the instrument or the administration that might affect the validity of the data?

No known problems with the instrument. Problems in the administration are documented in the monitors' reports which are available at ORE.

Who developed the instrument?

The University of Iowa. The ITBS is published by the Riverside Publishing Company (Houghton Mifflin Company).

What reliability and validity data are available on the instrument?

The reliability of the subtests, as summarized by Kuder-Richardson Formula 20 coefficient, ranges from .50 to .98, across subtests and levels. The issues of content and construct validity are addressed in the publisher's preliminary technical summary, pp. 13-15.

Are there norm data available for interpreting the results?

Norm data are available in the Teacher's Guide. The Teacher's Guide provides empirical norms (grade equivalent, percentile, stanine) for the fall and spring. Interpolated norms are available for midyear. National, large city, and school building norms are available.

BRIEF DEFINITION

MEMBERSHIP: The number of students on the current roll of the school (including regular and special education students) averaged for the entire year.

PERCENT ATTENDANCE: The percentage of students on the current roll who actually are present (including regular and special education students) averaged for the entire year.

PUPIL/TEACHER RATIO: The average number of students (regular and resource) per regular classroom teacher in the school.

% LOW-INCOME STUDENTS: The percent of students at the school who qualify for free and reduced lunch, based upon the third six-weeks membership.

ETHNIC DISTRIBUTION: The percent of enrolled students on October 1st who are Hispanic (H), Black (B), and Anglo/ Other (A).

MAJOR SPECIAL PROGRAMS: Programs bringing additional resources to a number of schools in the District, having a direct effect on achievement, and operating in this school.
